## **DETAILED ACTION**

### ***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609.04(a) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.
2. As this application is in condition for allowance, these references have been cited on the PTO-892 form by the examiner and have been considered. It should be noted that these references were submitted by the applicant.

### ***Allowable Subject Matter***

3. Claims 1-5 are allowed.
4. The following is an examiner's statement of reasons for allowance:
5. While the prior art of record shows various pressure monitoring and shutdown devices containing parts of the current invention, none of these references taken alone or in combination with the prior art of record disclose all aspects of independent claims 1 and 4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

***Conclusion***
